EDUCATION

B.Tech in Computer Science, Vellore Institute of Technology — Sep 2020 - Aug 2024
CGPA: 8.99
DBMS, DSA, OOPs, Computer Networks, Machine Learning, Deep Learning, Operating System

EXPERIENCE

Societe Generale Global Solution Centre — Feb 2024 - Oct 2025
Software Engineer — *Whitefield, Bangalore*

- Migrated multiple Excel-based VBA solutions to cloud functions written in Python, **reducing platform dependency by 100%** and wrote tests with **70%** coverage.
- Developed robust features for **Java-Spring(boot) applications** with **React/Angular** Frontend while following the **Agile Software Development** strategy.
- Incorporated API based data-fetching for compliance, **decomposing intricate SQL queries** to redirect partial data source, while keeping the **response time overhead below 5%**
- Led migration of **100%** docker images from **Mirantis Secure Registry to Harbor** and wrote **Jenkins Scripts & Docker files** for updated workflow.
- Optimized DB scripts in **C-shell** and **pl/pgsql** through **parallelization** of independent business logic, **reducing runtime by 45%** (from 5.5 to 3 hours)
- Achitected multiple **On-Prem** applications on **Azure Public Cloud**, setting up **AKS, Azure PostgreSQL DB, DNS, Certificates, Key Vaults**, etc. and designed automation, **reducing deployment effort by 80%**
- Automated **90%** of the **Blue-Green Migration for AKS**, including resource migration, network redirection, and access re-provisioning, **improving migration efficiency by 300%**.

TVS Motor Company — May 2023 - Jul 2023
Data Scientist Intern — *E-City, Bangalore*

- Achieved **90% automation** for accessories sales and under-performing dealer data analysis by developing a data cleaning cronjob and a **PowerBI dashboard**.
- Performed augmentation-based and prior-based fine-tuning for **YOLOv8-based** accessory recognition image model, which led to a **3% increase** in model accuracy.

Inxtinct Security — Apr 2023 - Jun 2023
Full Stack Developer (Freelance) — *Remote*

- Developed an email security plugin that performed email intent analysis, and threat analysis and provided suggestions by performing prompt-engineering on **GPT-4** API.
- Ported the plugin from Vanilla JS to **React + Typescript + Webpack** which reduced development time **by more than 40%**.

SKILLS

Languages	C++, Python, Java, JavaScript, HTML, CSS
Frameworks	Spring, Springboot, Angular, React, Express.js
Database	PostgreSQL, MySQL, MongoDB, Firebase
Tools	Git, Bash, Jenkins, Kubernetes, Github Actions, Docker
Cloud	Azure, Azure Kubernetes Service, Azure Key Vault

PROJECTS

KoDS Bot. Discord bot for managing an RPG game-based guild of 300+ members.

- Designed systems for profile creation, inventory management, and reputation system.
- Included tags system, bio and status system, and utility commands for moderation.

LEADERSHIP

- Led major migrations (**Nexus Repo** to **JFrog**, **Jenkins** to **Github Actions**, **On-Prem** to **Azure**) for my team at **Societe Generale**
